닌텐도 스위치

- 13개의 접합부.
- 슬라이딩을 이용한 고정 방식

USB C타입

- 12개의 접합부가 윗면과 아랫면에 대칭으로 존재
- 안쪽의 스프링이 달린 핀이 눌리면서 고정이 됨

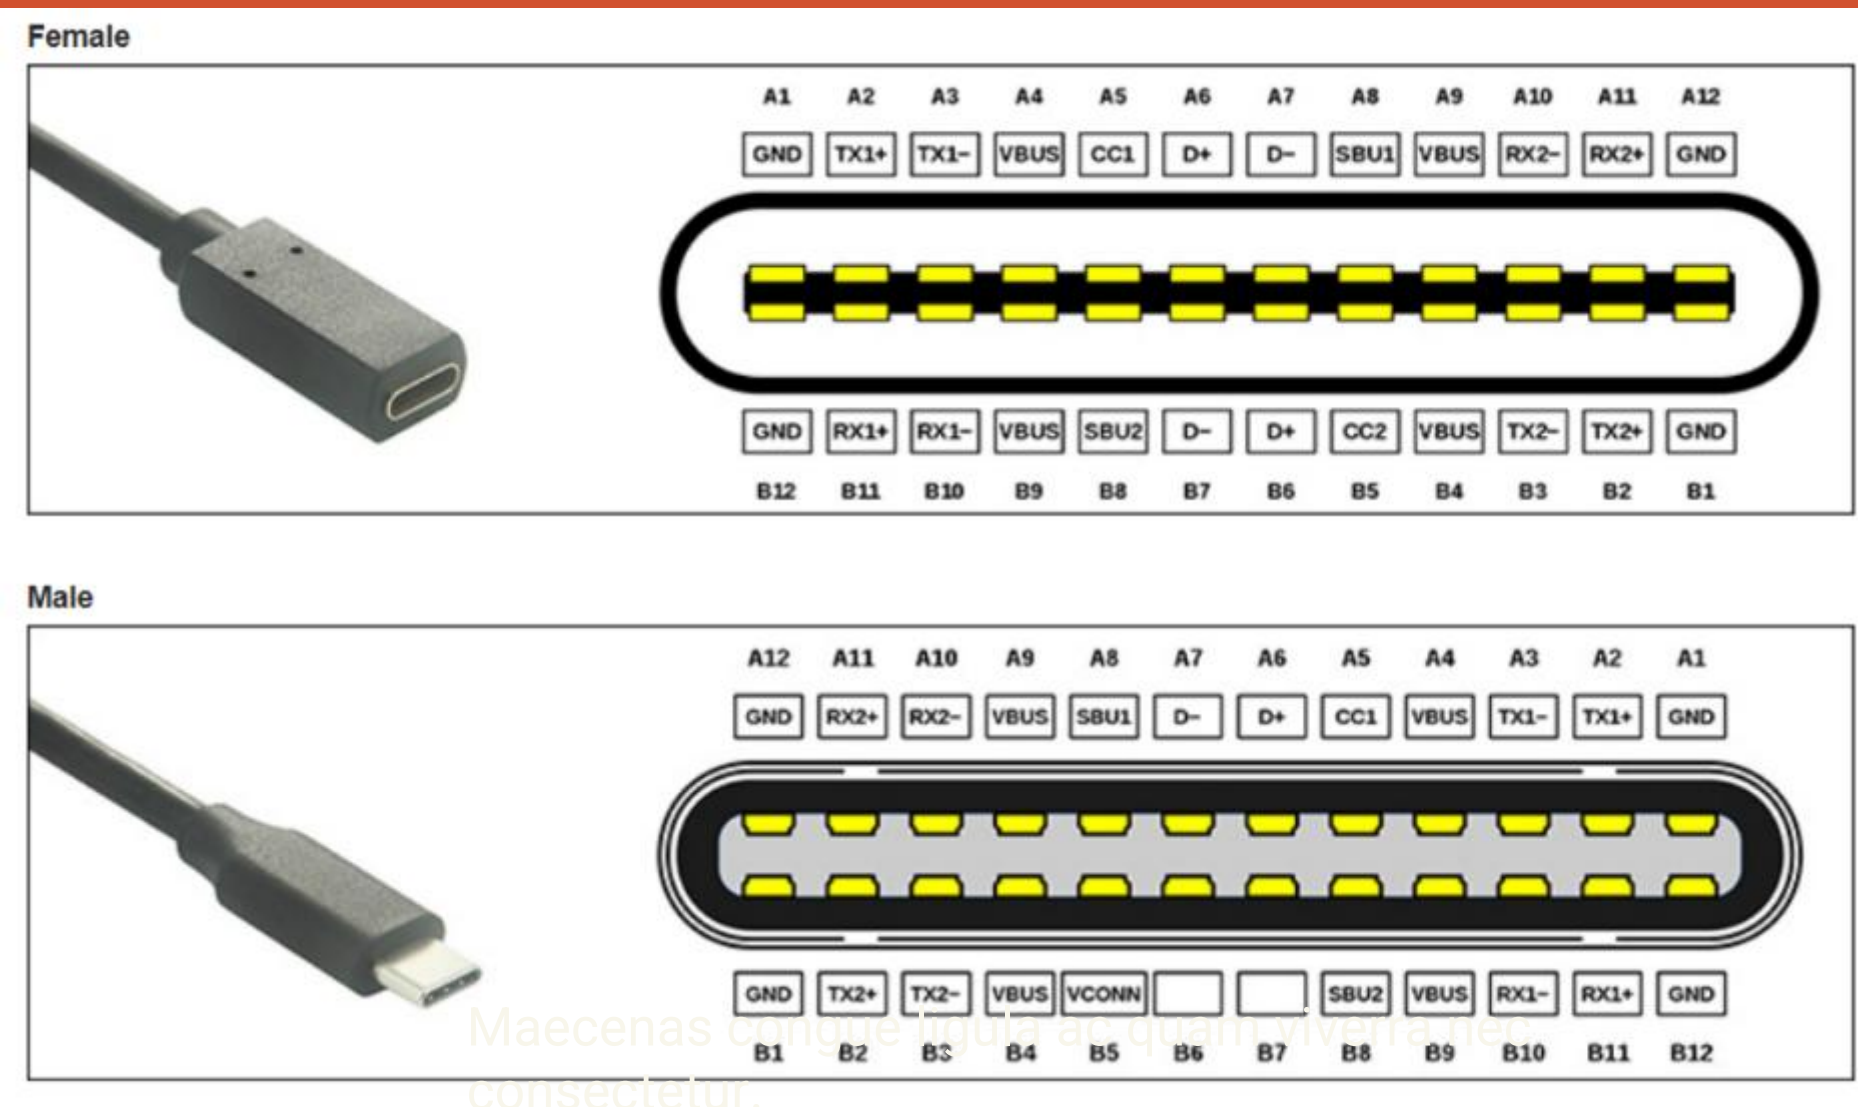

맥북 MAGSAFE

- 5개의 접합부
- 맥북 본체의 결합부에 자석이 위치하여 충전구를 고정시킴

split 접합부

12개의 접합부

- GND (-극) (2개)
- VBUS (+극) (2개)
- TX/RX (고속 데이터 전송) (4개)
- D+/D- (기존 USB2.0 호환) (2개)
- SBU1/SBU2 (보조 채널) (2개)

A close-up photograph of a hand operating a black computer mouse. The hand is positioned on the left side of the frame, with the index finger resting on the left button and the thumb on the right button. The mouse is on a dark surface. The background is a soft, out-of-focus greenish-grey.

The image is a composite of two photographs. The left side shows two purple GameSir wireless controllers. The one in the foreground is angled towards the viewer, showing its left side with a joystick and a directional pad. The one behind it is more upright, showing its right side with buttons labeled X, Y, A, and B. Green neon light effects, resembling a stylized 'G' or a signal, are overlaid on the purple controllers. The right side of the image shows a black GameSir wireless controller being held by a person's hands. The controller is shown from a top-down perspective, highlighting the right side with buttons labeled Y, X, and a large joystick with a rainbow-colored ring. The text 'MODE 03' is centered across both images in a large, bold, white font with a blue outline.
